

# The Honorverse Timeline

	<b>1 P.D.</b>	Sept30_1PD (2130AD): The first interstellar ship, <i>Prometheus</i> , departs the Sol System. The era of sublight colonization begins.
	<b>100 P.D.</b>	
200 PD: Lao Than perfects a vaccine against lung cancer (perhaps generalized against most other cancers, as well).	<b>200 P.D.</b>	252 PD: The <i>Economic Winter</i> of 252 devastates the global economy of Earth.
305 PD: Doctor Cadwaller Pineau of Tulane University bypasses the crystallization problem to provide practical, long-term cryogenic hibernation. The era of sublight Cryogenic colonization begins.	<b>300 P.D.</b>	314 PD: Austin Grayson leads his followers to the Yeltsin System to escape the evils of Earth's technology using a sublight colony transport ship.
	<b>400 P.D.</b>	
562 PD: The Manticore Binary System, a G0/G2 distant binary, approximately 512 Light-years from Earth, is confirmed to have planets by the astronomer Sir Frederick Clarke.	<b>500 P.D.</b>	
	<b>600 P.D.</b>	
774 PD: The original Manticore Colony, LTD. Places the high bid for the colonization rights to the Manticore Binary System.	<b>700 P.D.</b>	725 PD: The first crude hyper drive is tested in the Solar System.
	<b>800 P.D.</b>	October 24, 775 PD: The sublight colony ship <i>Jason</i> departs the Sol System for the Manticore Binary System.
925 PD: Founding of the Solarian League, a political unit that will grow to encompass virtually all systems within a light-century of Earth. *	<b>900 P.D.</b>	943 PD: The "official" end of Earth's <i>Final War</i> leaves a home world devastated by the effects of bioweapons and genetically -engineered "super soldiers."
988 PD: The sole habitable planet of the Yeltsin System, Grayson, colonized by members of the Church of Humanity Unchained, lead by its founder Austin Grayson.	<b>1000 P.D.</b>	988 PD: Austin Grayson dies on the world named for him.
	<b>1100 P.D.</b>	
1100 PD: The martial art form <i>coup de vitesse</i> , developed to combine Oriental and Western forms, appears on Nouveau Dijon.	<b>1100 P.D.</b>	
	<b>1200 P.D.</b>	1246 PD: The first phased array gravity drive, or impeller, is designed on Beowulf in the Sigma Draconis System.
1273 PD: Adrienne Warshavski, of Old Terra, develops grav Scanners and "alpha node" arrays to produce circular, plate-like gravity "sails." *	<b>1250 P.D.</b>	Sept 9, 1264 PD: The first Warshavski Sail colony ship, <i>Icarus</i> , departs the Sol System. The era of sublight colonization draws to a eventual close as no new sublight expeditions are launched and previous sublight expeditions arrive at their destinations – sometimes having been beaten to their target star by later, faster efforts.
June 1309 PD: First landing of colonists in the Haven System.	<b>1300 P.D.</b>	
1384 PD: Shigematsu Radhakrishnan develops the inertial compensator.	<b>1350 P.D.</b>	1350 PD: The Grayson Civil War - a scism between the Church of Humanity Unchained and the Faithful - is fought, resulting in the exile of approximately 47,000 of the Faithful to Masada in the neighboring Endicott System, beginning almost six centuries of hot and cold wars between the two neighboring systems. *
Mar 21,1416 PD: First landing by colonists from Jason on Manticore-A III.	<b>1400 P.D.</b>	1410 PD: Commonly referred to as the 'Eridani Edict,' Amendment Ninety-Seven of the Solarian League Constitution is adopted and unilaterally enforced by the Solarian League Navy after the Epsilon Eridani Massacre leaves seven billion dead.
1439 PD: The <i>Privacy Act of 14 A.L.</i> enacted.	<b>1425 P.D.</b>	1447 PD: First wormhole junction is discovered.
1454 PD: The <i>Manticoran Plague of 22 A.L.</i>	<b>1450 P.D.</b>	1465 PD: The <i>Plague of 22 A.L.</i> is finally defeated, but not before devastating the young colony, killing 60% of the population (90% of those born on Earth). Stephanie Harrington born in Hollister on the planet Meyerhardt.
Aug 1, 1471 PD: After changes are adopted to the founding charter of the colony, Planetary Administrator Roger Winton is crowned King Roger I of Manticore as part of a new constitutional monarchy.	<b>1470 P.D.</b>	1474 PD: Elizabeth I is crowned Queen of Manticore.
 1477 PD: Stephanie Harrington makes first human contact with the native sentients of Sphinx. (Short Story: <i>A Beautiful Friendship</i> )	<b>1475 P.D.</b>	1479 PD: Manpower's first known attempt to covertly study Treecats and the fauna of Sphinx (Short Story: <i>The Stray</i> ).
1502 PD: The first practical counter gravity generator is developed by the Anderson Shipbuilding Corporation of New Glasgow. *	<b>1500 P.D.</b>	1490 PD: <i>Crown Range Charter</i> enacted, establishing the principle of "Crown Range" (land in the public domain and free for the use of any individual) to encourage emigration to Gryphon.
1528 PD: Construction begins on King Michael's Cathedral, City of Landing, Manticore.	<b>1525 P.D.</b>	1507 PD: Michael I is crowned King of Manticore.
1538 PD: Edward I is crowned King of Manticore.	<b>1530 P.D.</b>	1509 PD: The Royal Manticoran Naval Academy graduates its first senior class.
	<b>1550 P.D.</b>	1543 PD: Last instance of an attack upon Manticoran territory prior to the Basilisk Raid and the Battle of the Basilisk Terminus in 1913 PD.
	<b>1575 P.D.</b>	1544 PD: Elizabeth III is crowned Queen of Manticore.
1581 PD: Dr. Ignatius Peterson, building on the work of the Anderson Corporation, Dr. Warshavski, and Dr. Radhakrishnan, mates countergrav technology with that of the impeller drive to create the first generator with sufficiently precise incremental control to produce an internal gravity field for a ship.	<b>1585 P.D.</b>	1585 PD: The Manticore Wormhole Junction is discovered.
1601 PD: David I is crowned King of Manticore.	<b>1600 P.D.</b>	1599 PD: Before being exposed as a front for Mesa's Manpower Unlimited, the Richtman Corporation lobbied hard to get legal access to Sphinx treecats for Experimental purposes.
1642 PD: Roger II is crowned King of Manticore.	<b>1625 P.D.</b>	1612 PD: Genetically modified variant of the Plains Buffalo is imported from Beowulf to Gryphon.
1669 PD: Adrienne I is crowned Queen of Manticore.	<b>1650 P.D.</b>	 1652 PD: Princess Adrienne adopted by treecat during visit to Sphinx. The treecat and his fellows detect and stop an assassination attempt against her. (Short Story: <i>What Price Dreams?</i> )
